

Citizens Declaration

Image not found or type unknown

This Citizens Declaration of Alliance Security was launched at a Shadow NATO Summit in April 2009. It sets out some of the basic values and principles to inform the debate about NATO's new Strategic Concept.

We believe that the 890 million citizens within the Alliance should have a voice in shaping NATO's future strategic direction.

We need your help.

Please sign the Citizen's Declaration and add your comments.
